

Dated March 13, 2022

Dear Judiciary Committee,

Time and time again we lawful gun owners of Connecticut find ourselves in a fight for the rights that were granted to us in our Constitution. We hear that it's because of the increase in gun violence that has not only plagued Connecticut but also our nation that these new laws need to be passed. Meanwhile we've done everything you've asked of us.... Even when what was asked violated our rights....under protest we still followed the law. So here we are again being asked to follow another set of laws that will do nothing to combat the real issues facing us as a state and nation. Here today I take a stand.... I am against these new proposed laws. I am tired of seeing our rights being so freely trampled upon. I'm tired of being asked to follow a new set of laws knowing that these new laws will do nothing to combat the real problems facing us.

I am a proud resident of the State of Connecticut... I am a proud American... I am a supporter of the 2nd Amendment.... DON'T TREAD ON ME!!!

I OPPOSE:

Senate Bill 16

House Bill 5416

I SUPPORT:

H.B. No. 5415

H.B. No. 5412

Thank You

Jeremy M. Carlson
